12 October 1974

NOTE FOR: Mr. Colby

Bill:

Danny Graham called to say his people would be getting in touch with our folks on a couple of matters of concern. Danny wanted to let you know about them before he takes off on a trip to Europe.

One has to do with an item in the NID about [   ] Danny says   STAT
this information is unclassified and had appeared in the press and it looked
as if our guys just picked up the story from the newspapers. Furthermore,
Secretary Clements, who considers himself an expert on oil, says the
article was "absolute rubbish."

The second item concerns Danny's understanding that the NIO for the
Middle East plans to set up an order of battle group. Danny is personally
upset about this and has instructed Tighe(sp?) to contact George Carver
STAT   about it. He said if [   ] is to set up a separate order of battle shop,
Danny wants to know why he feels the DIA set up is not sufficient.

STAT
